

Barcelona Workshop on Global Governance

**January 14-15
2013**

The aim of the Barcelona Workshop on Global Governance is to provide a venue for the study of global institutions from an institutional and organization design perspective. While most research on international organizations has viewed these entities as the platforms where states - the fundamental units - interact, this forum will focus on international governmental organizations (IGOs) themselves as the building blocks of global governance.

With the support of:

Fundación Ramón Areces,
Repsol, La Caixa, Ajuntament de
Barcelona, Diputació de Barcelona,
Generalitat de Catalunya

MONDAY JANUARY 14
